## VOH Zimbabwe: Meet Brandon

### February 21, 2024

Meet Brandon, one of the exceptional young adults at VOH Zimbabwe who is pursuing a Computer Science degree at a local university.

Brandon has triumphed over numerous obstacles and has consistently demonstrated exceptional academic performance throughout his educational journey, from primary school to high school and now at the university level.

His outstanding work ethic and unwavering discipline are defining characteristics of his persona. He remains focused on his aspirations and targets in life, continuously striving to push his boundaries and reach new heights.

Brandon willingly dedicates his time during school breaks to assisting in our office, managing day-to-day tasks, and working with computer systems. Additionally, he actively participates in various church programs.

We express our gratitude to the individuals who have continuously supported Brandon's dreams, and we earnestly pray and hope for his continued success!
